

EPA ID: PRD104097852 Site Name: LH CARIBE INC.

State ID:

Alias Site Names:

City: CAYEY

Refer to Report Dated: 4/18/2011

County or Parrish:

State: PR

Report Developed By:

Report Type: PRELIMINARY ASSESSMENT 001

☐ 1. Further Remedial Site Assessment Under CERCLA (Superfund) is not required because:

☒ 2. Further Assessment Needed Under CERCLA:

Higher priority for further assessment

Discussion/Rationale:

Two active drinking water wells in Cayey have level I contamination of tetrachloroethylene (PCE) and trichloroethylene (TCE). Volatile organic compounds such as PCE and TCE are most readily associated with automobile repair and dry cleaning facilities. In relation to LH Caribe Inc., these two wells are between the 1 and 2 mile radii of the site. Due to a large amount of solvent waste generated during their operation, eleven historical violations of EQB regulations, and the historical use of a septic tank and cesspools, LH Caribe Inc. is being evaluated as having a potential to release
